Introduction to Classroom Suite 4

And

Classroom Suite 4: Next Steps

Presented by

Dan Herlihy

October 4, 2010

Introduction to Classroom Suite 4 from 8:00am-12pm

Classroom Suite 4: Next Steps from 1:00pm to 5:00

Hosted at the

**Shore Family Forum room in the Ben Nighthorse Bldg
Anschutz Medical Campus**

Introduction to Classroom Suite 4 and Next Steps:

The Introduction webinar in the morning will initiate participants with the basics of using Classroom Suite 4, a cross platform computer based program that provides Pre K – 5 students with explicit instruction, constructive practice and embedded assessments.

Next Steps is for those already comfortable using Classroom Suite 4.0 and are ready to go beyond working with the included templates. Learn how to create or customize toolbars, edit activities from the activity exchange and add your own content. Work with new tools in version 4 including Scriptable Bins, Timers, Text Manipulatives, and more. Learn how to analyze activities and see what makes them tic, as well as how I approach creating activities from scratch.

Learning Outcomes:

After these sessions participants will:

Be able to analyze how activities run and have been created

Learn how to create customized learning activities for students

Learn how to adapt and customized activities created on the IntelliTools Activity Exchange
